

(NO₂-) Digital Nitrite Meter-NO230

Introduction:

NO230 meter also been called as nitrite meter, it's the device that measure the value of nitrite in liquid, which had been widely used in the water quality testing applications. Portable NO230 meter can test the nitrite in water, which is used in many fields like aquaculture, water treatment, environmental monitoring, river regulation and so on. Accurate and stable, economical and convenient, easy to maintain, NO230 brings you more convenience, create a new experience of nitrite application.

Features:

- Precise, simple and quick, with temperature compensation.
- Not affected by low temperature, turbidity and color of samples.
- Easy operation, Comfortable holding, All functions operated in one hand.
- Easy maintenance, replaceable membrane cap, no tools needed to change batteries or electrode.
- Large LCD with backlight, multiple line display for easy reading.
- Self-Diagnostic for easy troubleshooting (e.g battery indicator, message codes).
- 1*1.5 AAA long battery life.
- Auto-Power Off saves battery after 10mins non-use.

Technical specifications:

NO230 Nitrite Tester	
Measuring Range	0.01-100.0 mg/L
Accuracy	0.01-0.1 mg/L
Temperature Range	5-40°C
Temperature Compensation	Yes
Sample Demand	50mL
Sample Treatment	pH<1.7
Application	Aquaculture, aquarium, food, beverage, drink water, surface water, sewage, waste water
Screen	20 * 30 mm multiple line LCD with backlight
Protection Grade	IP67
Auto backlight off	1minute
Auto power off	10minutes
Power supply	1x1.5V AAA7 Battery
Dimensions	(H×W×D) 185×40×48 mm
Weight	95g
